Benedek Jaczenkó

Junior Web Developer

jaczenko.benedek@gmail.com   +36 (30) 383 - 8246   Márianosztra, Pest   linkedin.com/in/benedek-jaczenko-7a25a4249/

github.com/racerooni   bjaczenko-web.dev

Web developer with the ability to rapidly improve and work on complex projects within a collaborative team atmosphere. I strive on developing my foundations to the fullest.
Focusing on HTML, CSS, Javascript, Typescript, React, Next.JS.

EDUCATION

Szent László Gimnázium

2018 - 2022   Szob, Pest

[Boronkay György Műszaki Technikum és Gimnázium](#) - Software development -testing

2022 - current   Vác, Pest

PROJECTS

Hangman Game   2023

- First dive into React and TypeScript.
- Introduced myself to the React development ecosystem and explored various state management technologies.

MTA Guess The Map

- Utilized React and Next.js to develop a personal project, implementing the frontend with ShadCN UI and Tailwind CSS.
- Future plans include integrating an authentication system and building a leaderboard for the users to compete against each other.

My own Portfolio website

- Enhanced the website using advanced techniques such as useContext for state management.
- Gained insight on Framer-motion to animate each section.

E-commerce full-stack web application

- Developed front-end user experiences using React.js and Next.js, leveraging Tailwind CSS and ShadCN UI for styling.
- Integrated a relational MySQL database with Prisma ORM for seamless data management.
- Built app with Next.js using reusable Server and Client components.
- Gained experience using the Next App Router.

SKILLS

- HTML
- CSS
- JavaScript
- Typescript
- React.js
- Next.js
- Tailwind
- MySQL
